

AMS

**Advance Material
Solutions**

**Engineering
Product design
and
development**

**ENGINEERED
SOLUTIONS
MANUFACTURED
TO PERFORM**

**“A full stack engineering &
manufacturing partner for
product development,
industrialization, and production
scale up.”**

**Materials
Parts
Systems
Delivered**

**From concept idea design,
prototyping to high volume
Production**

**End-to-end design,
engineering ,development &
manufacturing capabilities**

Engineering Services

- Industrial & Product Design
- CAD Modeling, Design analysis and Simulations
- Design for Manufacturing (DFM) ,
- New Product Introduction
- Testing and Certification
- Custom Tooling , Jigs and Fixtures & Mold
- R&D Partner
- Automation Services

Manufacturing

- CNC Milling
- CNC Turning
- VMC Milling
- Engineering Prototypes
- Reverse Engineering
- Surface Finishing
- Coating
- Quality Inspection
- SOP Documentation

Industries served

- Aerospace
- Defense
- Automotive
- Oil & Gas
- Semiconductor
- Medical Devices
- Electronics
- Industrial Equipment
- Robotics
- Power & Energy

Materials

- Titanium
- Inconel
- PEEK
- Aluminum
- Stainless Steel
- Carbon Steel
- Copper
- Brass
- Carbon Fiber
- Composites
- PEI

Fabrication

- Sheet metal Fabrication
- Laser Cutting
- TIG & MIG welding
- Enclosure & Frames
- Kit carts & Transport carts
- Skins & Bodyworks
- Covers
- Kiosks
- Ducts
